We have firmly positioned ourselves as the second largest law firm in Korea thanks in large part to the trust and support from our clients.

We have started 2022 with our representation in two of the major cases to make news in Korea this year: the Osstem Implant embezzlement case (one of the largest employee embezzlement case in history) and Sampyo quarry accident case, which is anticipated to be the first prosecuted case under the new Serious Accidents Punishment Act. We have assigned a strong team of specialists to provide on-the-ground and expert advice to assist our clients to respond in a timely and efficient manner in these controversial cases.
